I am diagnosed with stage IV NSLC with ALK positive in July 2011. I am on Xalkori from Sept 2011 and feeling very good.

4/19/2012: MRI of the lower spine .Spinal stenosis ,hence the low back pain.

5/2/2012: PET/CT shows stable disease with resolution of lungs nodularity and SUV.

5/31/2012: Conformal radiation of the sacrum for the pain. 7/13 : Pain relieved.

7/27/12: MRI of the brain. anticipating Gammaknife

7/27/12: Radiation of the left shoulder .Simulation today.

8/10/12: Gamma knife done with lower dose

Recommend WBR for 4 weeks.

8/20/12: WBR started

9/18/12: PET/CT shows progression

10/15/12: started on LDK 378 trial

11/16/12: ct scan shows stable

1/8/13: CT and MRI shows improvement

3/5/13: CT and MRI shows stable

3/20/13: Lumbar puncture negative.

4/16/13: MRI of brain, stable. CT scan:

4/17/13: MRI of spine, better, tumor shrank in spine.

5/28/13: CT and mri of brain stable.

6/4/13: MRI of spine stable.

7/6/13: CT/MRI All stable.

8/15/13: CT/MRI all stable

9/10/13: MRI of spine. All stable.

10/4/13: CT/MRI stable.

11/4/13: ct/mri stable.

12/16/13: MRI of spine and brain shows some Progression.

12/24/13. CT scan is stable

1/28/29:14. Slight progression on brain. Stable rest of the body

2/25/14. 1st Appointment w dr shaw.

3/11/14. Ct MRI at mgh boston after 7 days of washout. Progressing everywhere

3/19/14. Versed study pf 922 trial next week

3/26:14. First dose of PF06463922

Hi friends

I am trying to enroll in the new pf 06463922

trial. Just finished my scanning , blood work etc

Yesterday. I am now on a wash out period.

Hope to stay eligible until I get the real medicine

two weeks from now.

Hi ican2011

I am with midazolam study cohort of pf. 922.

Today. I Am at the hospital taking the versed . Next week

I will be getting the pf trial medicine. The wash out

Period is hard. I am on prednizone and keppra Hope

Everything will be ok. I will keep you posted.

Hi

I just got the first dose of the new Pfizer drug PF 06463922.

Thank God. Is there anybody else in the drug.

I like to know any side effects.

Hi Craig.

The 25 mg PF 06364922 medicines started with me.

I had some side effects. Wabbling slurred speech head ache etc.

I'm not sure whether it is working on the

Brain I heard no side effect @ 10mg. I am ok today. At boston seeing the doctor

Today after the pain med etc

Hi friends

I didn't have any side effects so far after the 2nd dosing

of PF 06364922. No body know why it it happened.

Hi friends

I just want to give you an update on the  
PF 922 trial I am in for 3-4 weeks now. I do not  
have any side effects and it is shrinking mets  
In the brain. Over all I am feeling good.

Hi nan123

I was progressing on my 2nd inhibitor LDK.  
I should have a measurable tumor in my body  
Other than the brain which I had. They didnot  
Rebiopsy me but might have used my old tissue  
Medicine seems effective. I will have scans  
Next week.

John

JOHN7777 在 2011 年 7 月被确诊为非小细胞癌晚期, ALK 突变。我 2011 年 9 月吃克唑替尼,  
感觉很好。2012 年 10 月参加 LDK378 试验。2014 年 3 月 26 日吃 PF06463922 第一剂量。  
他是从 25MG 开始吃起的, 有一些副作用, 但在 10mg 没有听到副作用。28 日在 3922 的第  
二剂量没有什么副作用。4 月 21 日跟新的吃了 4 周对脑部有效, 没什么副作用。

John,

Let me know how it goes .... side effects..... results..... My husband is also trying to get on  
06463922. Consult is next week. Can't come soon enough to get started.

Concerning PF 06463922: We were able to discuss the early trial results with the participating oncologist at Sarah Cannon in early March. He didn't give specific details, but he did say the three patients who were on the drug at that time were doing extremely well : )

Today at 10:36 am

Updating my trial of PF 922

My 25 mg daily dose is effective for the whole body.

The next dose of 75 mg will start towards the end of next month.

I heard they will open new trial sites in U. S. soon.

Best wishes

John

rickygaoen,

Yes LDK was my last inhibitor and Xalkori was the first one. I donot know

Anybody with AP26113 in PF --922 trial. I am doing good with the trial.

A lot of shrinkage everywhere. Some in the brain

Completely resolved.

John

Hi zhangjun

I am at 75 mg level. It is working everywhere other than three small tumors in the brain. Thinking about Gamma knife. The only side effect I Have is constipation. I get a ct and MRI every 6 weeks.

Thanks,  
John

Dear John,  
So glad to hear from you .

Thank you soooooo much for your quick  
reply,very much appreciated for your great  
help:))

You are still staying on 25 mg? You  
mentioned that three brain foci need gamma  
knife, why not increase dose level to kill it  
instead of gamma knife?Cauze side effect  
that you suffered is very less and its  
allowed,isn't  
It?

Hearty thanks

Updating my PF06463922 trial

It is about 22 weeks since I started the trial.

I had an MRI of my brain and spine. Also CT of the

Body. One little (9mm now) one in the brain is  
Growing. Stable to improved on all others. Some  
Of them are resolved. We are thinking about  
Gamma knife. I am at 75 mg dose now. I might  
Dose up to 150 pretty soon. Thanks

John
